Session 1: Career 101: What Type of Job Is Best for Me?
Moderator Richard Earnest Sharpe MD, MBA : Nothing to Disclose

**LEARNING OBJECTIVES**

1) Increase participant’s confidence in their job search strategy. 2) Develop an understanding of the job opportunities for radiologists entering the workforce. 3) Describe the relevant big picture differences and more subtle nuances between working in private practice and working in an academic medical center. 4) Provide a forum for participants to ask questions regarding which job choice is best for them.

**ABSTRACT**

This course is designed for trainees and those recently having entered the radiologist job force. First, learn about why one may choose to become an academic radiologist, how to prepare for such a career, and what unique opportunities may exist in academic practices. Stay to hear about specific differences between working in academic vs private practice and discuss opportunities for leadership roles in any type of practice. Additionally, potential lifestyle ramifications of one’s career choice will be discussed. Still have questions? The session concludes with a candid question and answer session for you to get your questions answered!
